FOR CAST :

Care of POP cast / Not to wet or break the cast

Do's and Dont's :

Do's :

Keep moving the toes of the injured limb to prevent joint stiffness and swelling

Keep the cast clean and dry at all the time. Use plastic covering to protect the cast while bathing

Do check for cracks. Do keep foreign objects out of your cast

Dont's :

Do not scratch under the cast with pointed or sharp objects. This may injure the underlying skin leading to an infection

Do not trim the cast or break off any roughs edges, as this may weaken or break the cast

Do not sprinkle powder or perfume inside the cast. It can cause skin irritation

Do not drive or lift anything heavy weight until cast is removed

Physiotherapy exercises :

Knee bending exercises

Active toe mobilization exercise

Protected weight bearing walking with two elbow crutches

Static and dynamic quadriceps strengthening exercises

Pelvic bridging exercises
